

Variations of Air Quality Parameters during Day and Night time in Kolkata

Month – November 2012

Presentation of Air Quality data for Day time (0600 hrs to 1800 hrs of a day) and Night Time (1800 of a day till 0600 hrs of the following day) variations of air quality parameters recorded at the Continuous Automatic Air Quality Monitoring Stations at (1) Victoria Memorial Premise and (2) Rabindrabharati University Premise.

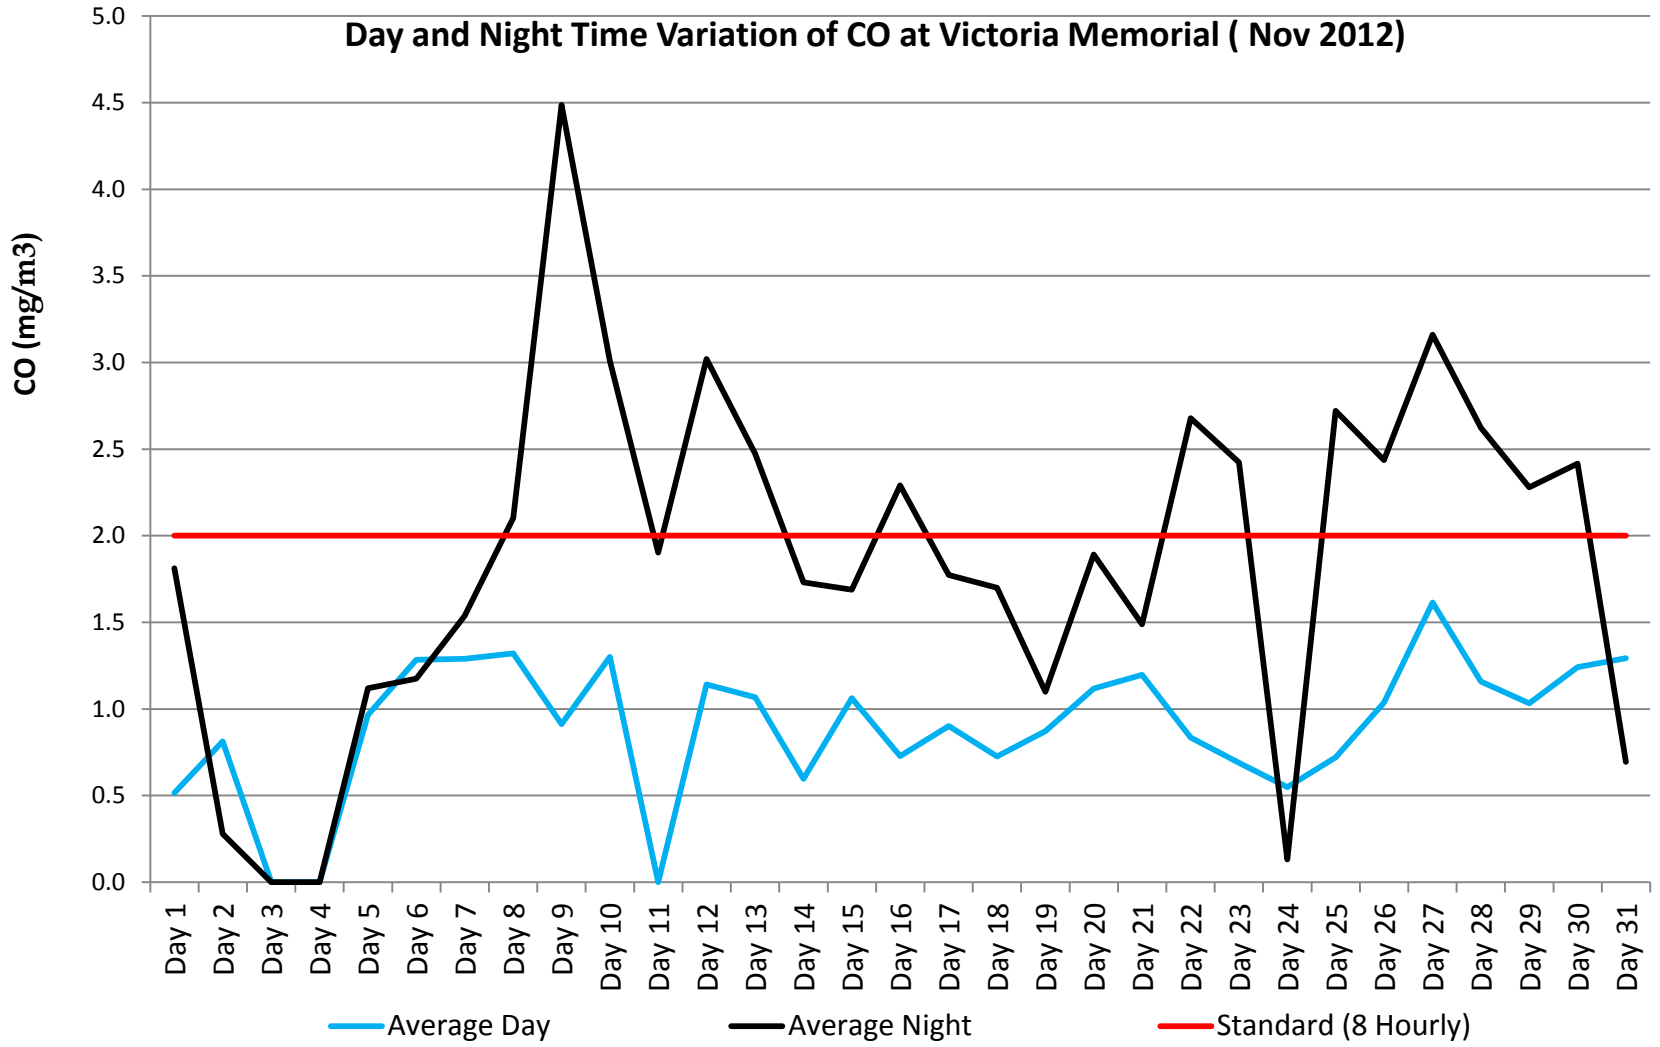

The data presented here are obtained directly from the measurement station. Minor changes in these data sets are expected to happen during rigorous data validation which is time consuming.
